Talk about calamities, the earthquake in the extreme Southwest of Italy and the Northeast corner of the Island of Sicily adjoining, which occurred Sunday night was undoubtedly the greatest of modern times and at the lowest estimate has destroyed nearly as much property as all of New Mexico is worth and killed about 200,000 or about half as many as are now in this territory. Those who did not perish have no place to go and need help. At this time when holiday generosity pervades the earth, it would be the best of all gifts to aid those who survive the calamity for they certainly need all and more than can be given.

The question of a territorial normal school for the Pecos valley is agitating the educational fraternity of New Mexico. As Carlsbad has no territorial institution of learning and offers the best summer and winter climate and a healthy location there is nothing to prevent its location here. Let this be the first effort of the Commercial Club and the people of Carlsbad as soon as the legislature meets. It would seem that this much might be conceded to Carlsbad as its due. The nicely shaded streets, the sidewalks and the fine sewer system shortly to be built together with the excellent church facilities and the auto line and new railways headed this way all give Carlsbad decidedly the advantage when it comes to presenting its claims for the Normal. Let it come to Carlsbad the Beautiful. And the territory as a whole will never regret it.

The Las Vegas Optic in a printed postal card request asks the editors of New Mexico to give their opinions as to the best measures for the coming legislature to enact into laws the coming session. The chances are that the editors will express their views in their own publications and if the Optic wishes to give its readers the benefit of them it will carry a department something on the order of the Albuquerque Journal, "What the Editors of the Southwest are Saying". As for new laws, the current believes the fewer the better, but there are many that need repealing. One measure of crying necessity is a law to prevent swindlers from operating as veterinary surgeons. Only in the past year this territory has been visited by several ignorant grafters, who are scarcely able to write their own names let alone to write a prescription. The one now in Carlsbad has never written a prescription and only the other day sent to one of the drug stores for "chloroform and squills, equal parts" which shows his ignorance of medicine.

Then the road law passed at the last session of the legislature has been found to be a failure and should be repealed, and a law passed that would have as its basis the working of the roads by contract, especially in the large jobs, the contracts to be under the supervision of the county commissioner of the district in which the work is being done. The commissioners

should let and pass on all work and receive compensation at the rate of from four to five dollars per day for all time actually spent in letting contracts or passing on the work done. There are many other laws that need repealing or amending, especially the fence laws which is so ambiguous, at present as to be totally unintelligible. There are other swindlers besides the veterinary swindlers, but they are difficult to get at, but there should be no trouble to keep illiterate ignorant swindlers from killing good horses and robbing good citizens by overcharging.

The patch of sidewalk in front of the Beckett barber shop may yet cause the death of some person for only last week Capt. C. W. Merchant slipped and fell causing him to be laid up for several days. All the sidewalks on Canon street should be covered with a smooth layer of concrete similar to the strip near the corner of Canon and Fox streets. The portion of walk along there was formerly as dangerous as that in front of Hendricks' and Beckett's.

Roberts-Russell

On Sunday evening at 8:30 o'clock, at the residence of Judge Thomas, Mr. Nat Roberts and Miss Emma Russell were united in marriage. Judge Thomas officiating. The groom and bride are popular young people of eastern Eddy county, N. M. We extend congratulations. — Seminole Sentinel.

The above named Nat Roberts is the second son of Mr. Sug Roberts who resides near Horse Camp at the breaks of the Plains fifty miles northeast and Judge Thomas is a former Carlsbad attorney. The young lady is said to be one of the brightest and prettiest on the Plains.

Card of Thanks.

We desire to express our gratitude to the many friends who so kindly lent aid and assistance in our great loss of husband and father and also to the people of Carlsbad generally for their genuine sympathy for us in our bereavement.

Capt. C. W. Merchant on Bonds.

In strong contrast with some of the people of Eddy county who do not possess one-tenth the amount of property owned by Mr. C. W. Merchant, the following, written in answer to a friend who differed from him in his home town Abilene, Texas, regarding the laying of concrete sidewalks in Abilene, may be of interest at this time when bond issues and other matters of public expenditure are being discussed.

"Well Mr. 'Citizen' please accept my many thanks for the bouquet you threw me. I am glad that I know you, Mr. 'Citizen,' you are a mighty good man and warm friend of mine and I like to hear from you. Now I

never got out and tried to make a dollar unless I was in debt, so I want to leave a debt on Abilene for my children and grand children to help pay, also on some of those fellows that have come here and bought cheap real estate and sat down on it and let some one else build up through a pasture. You do not know the fellows like I do, you have got to make a lane that will make them come up. I wish that I could vote One Hundred Thousand (\$100,000) Dollars in bonds tomorrow to put Abilene where she belongs. I would hit my real estate as hard as any one and the people that have real estate would be the ones that would pay it. Most of my property is in a country where the taxes are three dollars and seventy-five (3.75) cents per hundred and we do not kick. The little town of Carlsbad, New Mexico, has only two thousand inhabitants, her taxes are five dollars on the hundred, she has fine streets and miles of nice cement sidewalks, fifteen thousand dollar Masonic temple, ten thousand dollar club rooms and property is twenty-five per cent higher than in Abilene, they subscribed \$1,800 to move the sand out of the road forty miles from there, on the plains, so automobiles could carry the mail, and no one kicked. As I said before my time is too short for me to want to wait on your plans for revenue to get to see Abilene a city. I have been right here for thirty-four years, helping to drive the buffalo and Indians off the ground that Abilene stands on. I made the deal with the Texas & Pacific officials to make a switch where Abilene stands. Life is too short to wait for things to come to us, but we must go after them and hot air will not move things. It will take more than a 25,000 club to make a city, so let us raise the money some way and get in the procession and make Abilene a 25,000 city. My friend 'Citizen' I am sorry that we differ, but hope our tax payers will see as I do and make the other fellow do his part.

C. W. MERCHANT.
